Wrap up the problem of what to give this Christmas ~ Buy a gift for a child in Shonda!

What is the Shonda Project?

The Shonda Project is a small independent charity which has helped provide Kenyan children with affordable primary education for nearly 15 years. There are currently over 400 pupils in St John's School, which is situated in the small community of Shonda, on the outskirts of Mombasa. The Shonda Project currently provides over 85% of the money to run, maintain and develop the school.

What are Shonda Gift Cards?

Shonda Gift Cards are an alternative approach to gift-giving. It works like this: ...You buy a gift card for £5 or £10 ... your friend or relative receives the card with details of exactly what the money is being allocated towards...then the Shonda Project uses your money to buy a desk, medicines etc for use in Shonda, Kenya.

Can my money really make a difference?

To put it in perspective the average teacher salary is about £80 a month, so £5 or £10 in Kenya will go a lot further than here in the UK.

What has happened to the money raised from previous Gift Cards sales?

Last year over £900 was generously given through the sale of Gift Cards. Here are three examples of how your money was used to help children in Shonda.

1. Nursery equipment. We have seen significant improvement in this area in recent years – the faces say it all!

2. Medicines, simple but effective in combating fever and treating small cuts.

3. Feeding programme. Providing a simple meal makes a daily difference to many pupils

How can I buy Shonda Gift Cards?

Simply follow the instructions to complete the form on the back and we will send you your gift cards.

Please support this initiative by buying cards for your friends and families and make a real difference to those who need it most. Thank you.

Classroom essentials - £5

Children need basic school supplies like pens, pencils, exercise books and text books. Your gift will equip a child with these items for one subject. We support the local economy by purchasing your gift in the local community wherever possible.

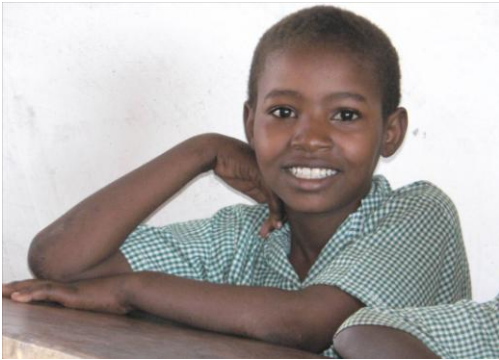

Basic medicines make a difference! - £5

Many children are frequently off school with malarial fever. For example Paracetamol can really help to keep temperatures down and aid recovery. Since we have been sending out these cheap and light medical supplies vast improvements have been recorded in school attendance figures.

Train a teacher - £10

Our dedicated team of teachers need training to keep up with the latest developments in education. Your contribution can go towards training teachers helping to give them the support they need to do an even better job and continue to inspire their pupils.

School desk - £10

The Shonda Project has renovated many of the classrooms and built a new nursery unit. Your contribution can help towards giving two children a new school desk and bench to help facilitate their learning.

School meal for a term - £5

Many of the children arrive in school without having had a meal. Your gift will contribute towards providing a nutritious meal for the nursery children so that they are better able to learn and can stay healthy!

Nursery equipment - £10

These little ones enjoying their afternoon nap need toys and play equipment to help them learn. Your contribution can help buy appropriate learning aids for pre-school children to give them a better start in life and show them that learning can be fun!
